EDUCATION

OUACHITA BAPTIST UNIVERSITY **Arkadelphia, AR**
Bachelor of Science in Computer Science *Graduated May 2026*
Bachelor of Science in Mathematics *Graduated May 2026*

Honors: GPA 3.8 | Member, Kappa Mu Epsilon (Mathematics Honor Society), President's List (Fall 2022, Spring 2024, Spring 2026); Dean's List (Fall 2023, Spring 2023, Fall 2024, Spring 2025), Recipient of the Academic Excellence from the Computer Science and Math Department May 2024

Relevant Coursework: Data Structures, Algorithms, Internet Development, Computer Organization, Computer Networks, Cryptology, Abstract Algebra, Software Engineering, Linear Algebra, Differential Equations, Probability and Statistics

PROJECTS & ANALYTICAL WORK

WTI Crude Oil Geopolitical Risk Analysis *April 2026*

- Collected and categorized ~400 daily WTI crude oil price observations (Oct 2024 – April 2026) across four geopolitical regimes: de-escalation, policy uncertainty, geopolitical tension, and military escalation.
- Built price frequency distribution tables and t-tests in Excel; Military Escalation periods exhibited ~3x daily price volatility (σ = 5.4% vs. 1.8% for Policy Uncertainty), with 61% of days seeing moves >2%, confirmed by a statistically significant Levene variance test ($p < 0.0001$).
- Identified a +33.4% average 30-day return during Military Escalation vs. -3.4% during Policy Uncertainty, translating findings into regime-based strategy recommendations: long bias on escalation breakouts, defensive positioning during policy uncertainty windows.

D2 Swim Program Progression Analysis *June 2026*

- Built an end-to-end Python data pipeline to measure swimmer career progression across NCAA D-II programs; engineered a three-tier scraping strategy (requests → Playwright/Firefox → osascript via Safari) to bypass successive Cloudflare blocking including Turnstile challenge pages.
- Designed a power point normalization metric to measure freshman-to-senior improvement across heterogeneous event portfolios; analyzed ~127 athletes across 4 programs and 4 cohorts (2019–2022) and reported results by team and gender in a normalized SQLite database.

Registration Reservation Web App - Full-Stack: *December 2025*

- Designed and implemented a web-based (JavaScript, HTML/CSS) registration system with user authentication, scheduling, and persistent data storage.
- Built server-side logic using Node.js with SQLite database integration; managed schemas and queries using DBeaver.
- Developed dynamic views with EJS templates and implemented form validation and session-based workflows.

WORK EXPERIENCE

OUACHITA BAPTIST UNIVERSITY **Arkadelphia, Arkansas**
Resident Assistant: *August 2023 - May 2025*

- Supported a community of 47 first-year residents over two years; organized and managed an annual 100+ person haunted house event coordinating across residents, RAs, and RD; handled nightly conduct enforcement and policy compliance responsibilities.

OUACHITA BAPTIST UNIVERSITY **Arkadelphia, Arkansas**
Bioinformatics Hackathon Mentor: *April 2026*

- Guided a group of 20 high school students through hands-on sequencing and genome annotation tasks, adapting and explaining technical concepts for non-expert audiences, as well as collaborating with them to troubleshoot errors and ensure successful completion.

SKILLS

- Technical: Java, JavaScript, Node.js, ReactJS, Python, Kotlin, C, R, Git, HTML5, CSS3, SQLite, Agentic AI Development (Claude Code)
- Languages: English (fluent), Spanish (fluent).

ATHLETICS

OBU Swim Team (NCAA Division II) **Arkadelphia, AR**

- Second team All-American (2024-2025, 2025-2026) & Academic All-District (2024-2025, 2025-2026)
- First team All-Conference (2024-2025, 2025-2026) & Second team All-Conference (2023-2024)
- Competed at the 2025 and 2026 NCAA DII Swimming and Diving Championship (400 Freestyle relay)
